0a. I'm really excited about our winter holiday!  
Where do you think we should go? → 1b.

1a. I don't like the idea of going to a ski resort. I don't want to spend my winter in a cold place. I want to go somewhere with warm weather like the Canary Islands. Don't you think that would be a better idea? → 2b.

2a. Yes I do like fashionable clothes but on this occasion I would prefer to see some amazing landscapes and the Canary Islands have lots of (lots of them). → 3b

5a. That does sound really good. Look, I just want to go somewhere where there are few people. Just you and me. → 5b

3a. You're right I do like food. And eating tradition homemade food is very attractive but we can eat very nice fresh food in the Canary islands. My friend went the last month and she said told me that the food there is amazing.  
4a. In addition there are many different watersports that we can do. We can do some scuba diving, waterskiing and the snorkelling there is excellent. → 4b

What do you think? → 1a

2b. No, I don't think it would be a better idea. I know it's going to be cold but we will have warm fashionable clothing and equipment. I know you like to look good and wear fashionable clothes so I think you would enjoy it. → 2a

3b. Yes but what about the landscapes in the mountains. They are amazing too! Another good thing about going skiing is that the food they serve, at this specific resort that I want to take you to, is very good. It's traditional homemade food! Come on, I know you like good food! → 3a

4b. I am agree that watersports would be fun but I would like to do something a bit more romantic. All we do nowadays is work. I think it would be very romantic to rent a small cottage in the mountains with a fireplace and relax while the snow falls outside. → 5a
