Semicolon						
◦	Link (in a single sentence) two independent clauses that are closely related in thought. Both parts have equal position or rank. <i>"Some people write with a word processor; others write with a pen or pencil."</i>					
◦	Use a semicolon between two independent clauses that are connected by conjunctive adverbs or transitional phrases . <i>"But however they choose to write, people are allowed to make their own decisions; as a result, many people swear by their writing methods."</i>					
◦	Use a semicolon between items in a list or series if any of the items contain commas. <i>"There are basically two ways to write: with a pen or pencil, which is inexpensive and easily accessible; or by computer and printer, which is more expensive but quick and neat."</i>					
	Use a semicolon between independent clauses joined by a coordinating conjunction if the clauses are already punctuated with commas or if the clauses are lengthy. <i>"Some people write with a word processor, typewriter, or a computer; but others, for different reasons, choose to write with a pen or pencil."</i>
