HEALTH AND HEALTHCARE
We usually mention health among the things we most care about and living healthily has become an important issue for many people, as well as having access to quality healthcare. You are going to speak about health and healthcare.

You may talk about the following:
- Healthcare in your country.
- Healthy habits: things you could do to live more healthily. Your opinion on cosmetic surgery.
- Are you a hypochondriac? Do you know anyone who is?

You have 4 minutes to prepare. You have to speak for 4 minutes. Your production will be recorded.

SHOPPING
We live in a consumer society which basically means that we have incorporated shopping into our daily routines. However, do we really need everything we buy? Comment on your shopping “style” and consumer habits.

You may talk about the following:
- Frequency and location of your shopping
- Payment methods
- Online shopping
- Consuming more than we really need

You have 4 minutes to prepare. You have to speak for 4 minutes. Your production will be recorded.
